

Code-Layout, Readability and Reusability

Date	28.09.2026
Team ID	SWTID-2026-7365
Project Name	Student Enrollment & Course Management System (SECMS)
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed	Remarks
1	Consistent Indentation	Uniform spacing/tabs used	Partial	Structured Salesforce setup; source not supplied.
2	Proper File Structure	Files and folders organized logically	Partial	
3	Meaningful Variable Names	Variables reflect purpose clearly	Partial	Descriptive field/API names documented.
4	Function / Method Names	Functions descriptively named	Partial	
5	Code Comments	Comments explain logic	Yes	Purposes, steps, formulas documented.
6	Modular Design	Code split into reusable modules	Yes	Objects, flows, rules, reports are modular.
7	No Redundant Code	Duplicate code removed	Partial	Source not supplied to verify duplicate code.
8	Error Handling	Exceptions handled gracefully	Yes	Validation rules handle invalid cases.

Reusable Components / Modules:

S.No	Component Name	Technology	Where Reused	Reusability
1	Salesforce Flows	Salesforce	Enrollment automation	High
2	Validation Rules	Salesforce	Student & enrollment validation	High
3	Approval Process	Salesforce	Enrollment request approval	High
4	Reports & Dashboards	Salesforce	Monitoring & reporting	High
5	Lightning App / Objects	Salesforce	Unified academic operations	High

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	4	Based on structured milestones; code source not provided.
Readability	4	Clear terminology, steps, formulas and config names.
Reusability	5	Flows, rules, approval, reports are reusable modules.
Documentation / Comments	4	Purposes, setup steps, rules well documented.
Overall Score	4	Overall assessment based on SECMS document.
