

Scalability & Future Plan

Date	30 September 2026
Team ID	SWTID-2026-7365
Project Name	Student Enrollment & Course Management System (SECMS)
Maximum Marks	1 Mark

Scalability & Future Plan

This document outlines how SECMS can scale and how the team plans to extend it beyond the current scope.

Current System Limitations

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	Dependence on the Salesforce platform	Requires a Salesforce environment and configuration	Medium
2	Initial configuration effort	Requires planning, testing and administration	Medium
3	Future integrations need extra configuration	External services (e.g. payments) need additional setup	High
4	Future-scope features not in current implementation	Payment, portal, analytics and mobile access are not available yet	Medium

Scalability Plan

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	Users / Departments	Single institution setup	Extend the same objects and flows to multiple departments
2	Data	Student, Course, Instructor, Enrollment objects	Add modules on the same data model as records grow
3	Automation	Flows and approval process	Add flows for new processes while keeping one flow per purpose
4	Security	Profiles, permission sets, sharing	Extend roles and permission sets as users increase

Future Roadmap

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
Phase 1	Payment gateway integration	Future scope	More complete fee-management workflow
Phase 2	Student self-service portal	Future scope	Reduced manual interaction and improved accessibility
Phase 3	Advanced analytics and insights	Future scope	Improved trend and performance analysis
Phase 4	Mobile access support	Future scope	Greater accessibility for users
